

CERTIFICAT OF EMPLOYMENT

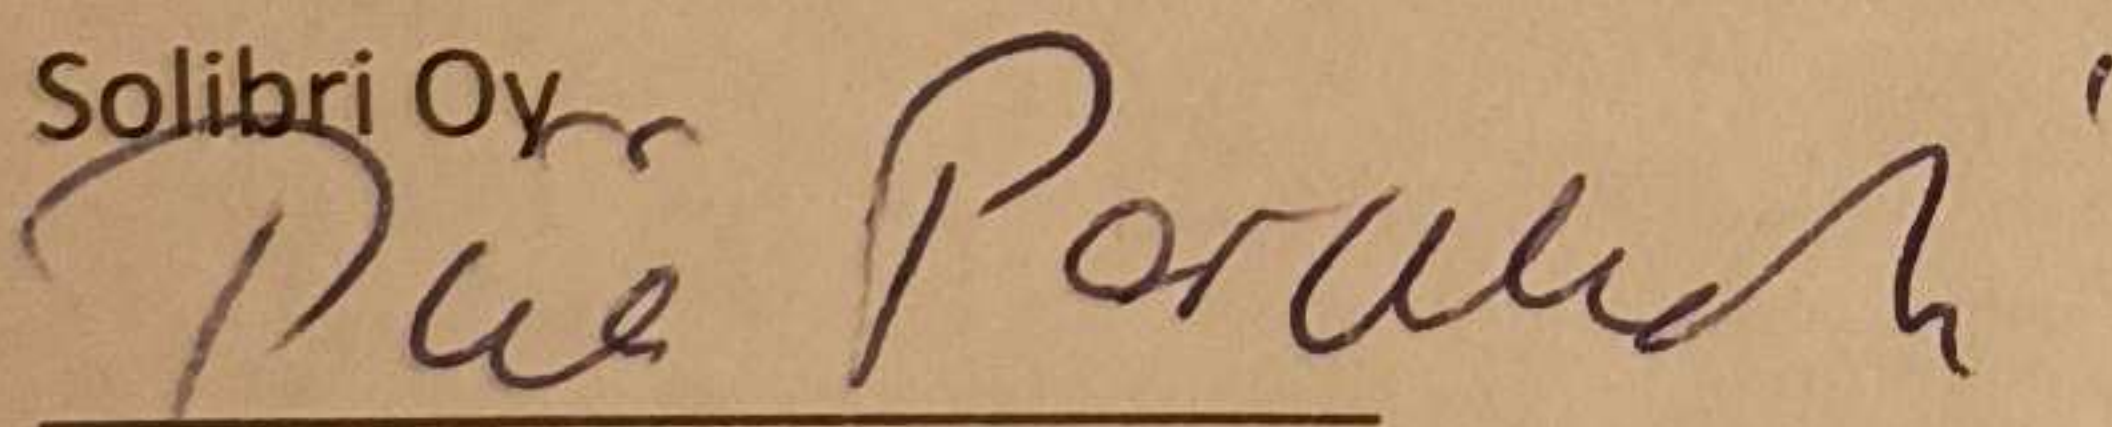

Hamed Davoudabadi has been working for Solibri Oy first in integrations training program 20th of June until 31st of August and after that as a trainee in software development in the R&D team from the 1st of September onwards. His employment was fixed term and it ended 31st of December 2022.

During his time at Solibri Hamed displayed drive, great attitude, and high potential in software development. The main Cloud computing tool he worked with were AWS (Amazon Web Services), Javascript and Python programming languages.

Hamed is a fast learner and very responsible person. He is valued colleague at Solibri and we can warmly recommend him to the similar or even more challenging positions in software development.
